PRODUCT OVERVIEW

4-channel Competition SPL Amplifier

With the GZCA 300.4, Ground Zero introduces the 12-volt successor to its previous 24-volt amplifier. The high-performance 4-channel Class D amplifier impresses with high efficiency, broad frequency response, and 1-ohm stability, making it ideal for flexible, SPL-oriented system setups.

Equipped with adjustable high- and low-pass filters, variable input sensitivity, and comprehensive protection circuits, the amplifier is suitable for both demanding sound systems and everyday use. Features such as start-stop compatibility, suitability for electric vehicles, and the included bass level remote control round out the overall package.

KEY FEATURES

- 4-Channel High-Power class D amplifier
- High-efficient class D technology
- Full range frequency response
- 1 ohm stable (stereo mode)
- Adjustable low pass, high pass filter
- Adjustable input sensitivity
- Turn-on delay
- Thermal, Short, Overload protection
- Fit to start-stop vehicles
- Compatible with many e-cars (see the manual)
- Wired bass level remote control (channel 3+4) included

CONTENTS

- 1 piece GZCA 300.4
- 1 piece GZREM 1-A
- Mounting hardware

FACTS

Model	GZCA 300.4
